

Code Signing Certificate Working Group

F2F 61

28 February 2024

New Delhi, India

Antitrust Compliance Statement

“As you know, this meeting includes companies that compete against one another. This meeting is intended to discuss technical standards related to the provision of existing and new types of digital certificates without restricting competition in developing and marketing such certificates. This meeting is not intended to share competitively-sensitive information among competitors, and therefore all participants agree not to discuss or exchange information related to:

1. Pricing policies, pricing formulas, prices or other terms of sale;
2. Costs, cost structures, profit margins,
3. Pending or planned service offerings,
4. Customers, business, or marketing plans; or
5. The allocation of customers, territories, or products in any way.”

Agenda

1. Assign Minute taker (start recording)
2. Roll call
3. Antitrust Compliance Statement
4. Review Agenda
5. Approval of prior meeting minutes
6. Certificate Transparency for Code Signing
7. Reduction of Code Signing validity to 15 months
8. Ballot for EVG import
9. Ballot for Time-stamp update
10. Other business
11. Next meeting – 7 March

Approval of Minutes

- 8 February 2024

Certificate Transparency for Code Signing

- Problem statement
- Will CT work?
- Who will operate CT logs?
- Do we need a Code Signing CT log policy?
- How many logs?

Reduce Code Signing Certificate Validity to 15 months

- Current validity period is no more than 39 months
- Long validity period provide more time for a key to be compromised
- A compromised key may impact signed code when the certificate is revoked
- Shorter validity will mitigate the risk

Ballot Status

- EVG import
- Time-stamp Update
 - <https://github.com/cabforum/code-signing/pull/34/files>

Other business

- Any other business?

Next Meeting

- Thursday, 7 March 2024, 12:00 ET

Thank you
